- **Cancelations:**

Abstract CP0436: M. Cavus, B. Yazici, A. Sezer. Comparison of group means using the modified generalized F-test in the presence of outliers under heteroskedasticity. **Session CP107.** Poster Session II. Room: Ground Hall. Thursday 25.8.2016 11:00 - 12:05.

Abstract CC0563: Cem Iyigun. A deep learning approach for electrical signal time series classification. **Session CG028.** Pattern recognition of time series. Room: Sala 4. Tuesday 23.08.2016 11:00 - 12:50.

Abstract CP0471: S. Mankir Kahvecioglu, B. Yazici. Comparison of two regression models using the generalized p-value method. **Session CP107.** Advances in random forests. Room: Sala Camara. Thursday 25.08.2016 11:00 - 12:05.

Abstract CC0213: J. Jha, A. Biswas. Regression on a unit sphere. **Session CP107.** Poster Session I. Room: Sala Ground Hall. Wednesday 24.08.2016 11:00 - 12:50.

- **Changes in sessions:**

Abstract C00358: F. Greselin, L. A. Garcia-Escudero, A. Mayo-Isicar, G. McLachlan. Robust clustering of multivariate skew data. Initially scheduled for **Session C0095.** Recent contributions to robust mixture modelling. Room: Sala 1, Friday 26.08.2016 09:00 - 10:30, will be presented at **Session CI083.** Recent developments in mixture models. Room: Sala Camara. Tuesday 23.08.2016 16:30 - 18:00 in replacement of the cancelled talk:

CI0376: Charles Bouveyron. Recent developments in model-based clustering of functional data. **Session CI083.** Recent developments in mixture models. Room: Sala Camara. Tuesday 23.08.2016 16:30 - 18:00.
